

CONFERENCE LOCALE

The CCSC Eastern Regional Conference will be held on October 15th and 16th, 2010 at Juniata College in Huntingdon, Pennsylvania.

Juniata is located in the Allegheny Mountains of central Pennsylvania. Situated on the Juniata River and at the northern end of Lake Raystown, Huntingdon, PA is renowned for its outdoor activities. Voted one of the coolest small towns in America, Huntingdon also boasts many cultural attractions, good eats, cool pubs, and cozy cafés. For lodging, stay at one of our local hotels, a homey B&B, go camping, or rent a cabin or even a houseboat.

Juniata is 1 hour from State College (SCE) and Altoona (AOO), 2 hours from Harrisburg (MDT), and 3 hours from Baltimore & Washington (BWI/IAD). Amtrak trains stop in Huntingdon daily with a pick-up service available upon request. Remember...getting there is half the fun.

CALL FOR PARTICIPATION

The CCSC Eastern Conference 2010 is designed to promote the exchange of information among 2-year and 4-year college personnel concerned with computer use in the academic environment. It provides an affordable regional forum for exchange of ideas and information concerning computing and computing curricula in smaller academic institutions.

The CCSC Eastern Conference welcomes scholarly papers, presentations, workshops, and panels on the content, structure, delivery, support, and societal context of all areas of computing education. We also invite submissions on innovative computing topics and applications of interest to participants.

Technology education is an amazing journey for both students and professors. We would especially welcome submissions regarding this journey and confirming the old adage that "Getting There is Half the Fun".

For student participants, there will be an undergraduate programming competition and a student poster session, both awarding prizes.

Workshops will be scheduled before, during, and after the conference.

PROGRAMMING COMPETITION

We are planning for a collegiate level programming competition for teams of 2 or 3 students. Prizes will be awarded. Teams are encouraged to register early and will be accepted as long as space is available. See the conference web site for more information.

SUBMISSIONS

PAPERS

We invite both instructors and students to submit papers, which will be double-blind reviewed. Papers that are selected for the Conference will be published in *The Journal for Computing Sciences in Colleges* and the ACM Digital Library. At least one author must register for the conference and attend to present the accepted paper. Papers will be submitted and reviewed electronically.

PANELS, TUTORIALS, WORKSHOPS

We invite instructors to propose panels, tutorials and workshops. Panels and tutorials are presented in a 75 minute format. Pre-conference and post-conference workshops provide hands-on experiences in a 2-3 hour format.

NIFTY IDEAS & LIGHTNING TALKS

Instructors are invited to submit an abstract describing a nifty teaching strategy, tool, or assignment that they believe conference attendees will find useful in teaching. Accepted topics will be incorporated into a panel session. All participants are also invited to submit ideas for "Lightning Talks" of 5 minutes in length on topics of interest or practical classroom value. These talks will be presented in a single session.

FACULTY & STUDENT POSTERS

We invite faculty and students to submit posters. An abstract is required for consideration. Student abstracts will be published in a separate brochure and prizes will be awarded.
